

TRIMEC® 992

BROADLEAF HERBICIDE

Lawn applicator formula for quick knock-down of dandelions and other lawn weeds.

Trimec® 992 Broadleaf Herbicide is the 'applicator formula' Trimec complex. Trimec 992 contains extra 2,4-D for the quick visual response and lower cost required by the professional lawn care operator. Dandelion curl is almost immediate, which is just what is needed to let homeowners and other property owners know that their weeds are dying.

Trimec 992 is labeled for use on warm- and cool-season grasses

including bermudagrass, zoysiagrass, St. Augustinegrass¹, Kentucky bluegrass, fescue and perennial ryegrass.

Spray volumes ranging from 5 to 220 gpa are suited to all types of spray equipment and accommodates tank mixtures containing fertilizer, iron or PGRs.

¹Do not apply this product to Floratam St. Augustinegrass.

Trimec is a registered trademark of PBI/GORDON CORPORATION.

RECOMMENDATIONS

For post-emergent broadleaf weed control in residential, institutional and commercial lawns, sports turf, parks and recreational areas, condominiums and townhouse grounds; also labeled for use on golf course fairways, sod farms and other sites.
